

Low-Profile Camera

Big Picture Small Profile

A good video system starts with high-quality, rugged cameras that can stand up to the harsh daily movements of school buses, while still delivering crisp, high-resolution video.

We raised the bar with our Low-Profile Camera: The same high-quality image, in an even smaller design.

Don't miss a detail, with HD 1080p-equivalent images at any angle

Install anywhere, thanks to less than 1 inch of protrusion and quick-connect single-strand cabling

See clearly at all times, with NightVision low-light system

Hear every detail, with the best in class sound quality

Triple Axis Aiming means greater aiming control and mounting flexibility
