

ZEUS TITAN

ZEUS TITAN
Next-Gen AI Powered DVR

Future Proof Your Video System

TITAN is more than just a DVR, it's a next-gen platform that can power your entire school bus video & fleet management solution. TITAN is faster, smarter, and it's 4TB Infinity storage is backed by a lifetime warranty.

16 crystal clear video channels allow you to scale your system as needed

The most technology ever crammed into a small footprint DVR, to make install easy

Never pay for another drive again, with 2TB or 4TB Infinity Drives that are guaranteed for life

Have peace-of-mind with E-Guard: Allowing you to capture events after a power failure

Don't miss a detail, with 4K & 1080p HD support on all channels

Real-time WiFi/BT/4G/LTE/OBDII connection capability baked-in

TITAN's AI core enables the integration of cross-platform features not limited to video. It allows for a central communications portal for video, tracking and retrieval of real time and historical vehicle performance data.
