

SOLUTIONS

Our Products are Reliable, Powerful, and User Friendly

Our DVRs deliver video in dynamic, crisp, high-resolution. Our new cameras allow you to see between, behind, and above every seat. Our new hard drive has a LIFETIME warranty. Our new 5G wireless platform provides the fastest video downloads in the industry. See it all – quickly and clearly.

The Foundation

One Zeus TITAN system can connect up to 16 cameras, allowing you to scale-up without purchasing another DVR. Storage is backed up by an industry-first [lifetime](#) warranty.

The Storage

Never pay to replace another hard drive again. You read that right. The ultra-grade Infinity Drive comes standard with an industry-first [lifetime](#) warranty. Available in 2TB and 4TB flavors for maximum storage.

The Camera

The game changer. See in-between every seat, with fewer cameras. Easy to install, and blends in with your bus. Combined with our TruView feature, you get 3 camera angles from 1 single OmniView camera.

The Retrieval

Our latest wireless management tool offers the fastest speeds in the industry, allows you to download video quickly and efficiently, without ever having to pull a hard drive. Watch video, save video, run GPS reports - all from the seat in your office.

The Review

Using our cutting-edge, easy to use viewer software, you can review video within 3 clicks on opening the program. Get the video you need in seconds, then export to a secure format to safeguard footage.
